WHAT ELSE CAN I EXPECT?

The following vaccines and services will be recommended for your new puppy or kitten in their first year.

FOR PUPPIES:

Recommended Core Vaccinations*

3-5 Distemper/Adenovirus/Parainfluenza/Parvoviral vaccines

1 Bordetella vaccine

1 Rabies vaccine (1 year duration)

*Leptospirosis, Lyme and Influenza vaccines (elective based on environmental risk and your pet's lifestyle)

Intestinal Parasite Testing and Control

2 Stool Samples (for parasite evaluation)

2 Oral De-wormings (CDC recommended to treat hookworms and roundworms)

Spay / Neuter

We recommend that your puppy be spayed/neutered by 9 months of age. Ask our team for details.

FOR KITTENS:

Recommended Core Vaccinations

3-4 Distemper/Distemper/Respiratory Virus Vaccinations

2 Feline Leukemia Vaccinations

1 Feline Purevax Rabies Vaccination

Intestinal Parasite Testing and Control

2 Stool Samples (for parasite evaluation)

2 Oral De-wormings (CDC recommended to treat hookworms and roundworms)

Spay / Neuter

We recommend that your kitten be spayed/neutered by 6 months of age. Ask our team for details.
